

Let Me...

Let me be the ground beneath your feet

Let me comfort you on my soft grasses

Let me relax you on my white sands

Let me refresh you in my cool clear waters

Let me cool you under the leaves of my trees

Let me fill your eyes with the colours of my rainbows

Let me fill your ears with the songs of my birds

Let me fill your nose with the essences of my blossoms

Let me cleanse you with my rain

Let me renew you with my storms

Let me warm you with my fire

Let me feed your body from my soil

Let me quench your thirst from my streams

Let me give you companionship with my animals

Let me be your teacher in all things big and small

Let me give you the secrets of the Universe

Let me give you healing with a simple touch

Let me give you ...love

- the Earth
